

SURVEY WORK

Multiple vessels will conduct geophysical surveys in the Bluepoint Wind Lease Area (OCS-A 0537) starting in March 2023. Vessels will be in the Bluepoint Wind Lease Area for reconnaissance activities starting on March 8, 2023 but will not start the geophysical survey until mid-month. These activities will continue through much of 2023 and will also include activities in areas under consideration for offshore export cable routes.

A geotechnical survey campaign will also be coordinated with the geophysical activities. Geotechnical work began in the Summer of 2023 and is expected to continue through the end of the year.

Geophysical surveys will be used to characterize the seafloor and sub-bottom features using acoustic and magnetic technologies that use sound to chart the seabed, sub-seabed, and magnetic anomalies. Geotechnical surveys will be used to determine the feasibility of building on a site through site investigation via physical sampling techniques. The collection of this information will assist Bluepoint Wind in understanding seabed topography, submerged obstructions, seabed and subsurface materials classifications (e.g., texture), and the locations of potential historic or archaeological resources.

- Survey activities will be conducted in accordance with federal and state regulations and health & safety policies and procedures.
- Survey activities and locations will be posted to the Local Notices to Mariners in U.S. Coast Guard Districts 1 and 5.
- Vessels will have Protected Species Observers (PSOs) on-board during survey activities to identify protected species' presence and provide measures for the protection of marine wildlife.
- Survey vessels will conduct work activities in accordance with the need to respectfully coexist with fishermen and fisheries vessels, gear, and personnel.

BOEM Chart of Bluepoint Wind Lease (OSC-A 0537)

Lucia de la companya della companya

Vessel Name: Brooks McCall

MMSI: 338257000 Call Sign: WCZ7811 Flag: USA [US] Length: 159 feet

Activity Start Date: December 14th

Area: Coastal nearshore and Offshore Lease

OCS-A 0537

Operation: 24 hours x 7 days

Vessel Name: RV Henry Hudson

MMSI: 367541190 **Call Sign:** WDG4894

Flag: USA [US] Length: 45 feet

Activity Start Date: December 22nd

Area: Nearshore waters of New Jersey from approximately 3 NM from the shoreline to the

NJ shore.

Operation: 7 days per week, 12 hours of daylight operation until survey completion
